

# Audacious Inquiry's Medicaid HIT Advantage Framework Discovery Process

The following steps help an HIO identify the value of the HIT asset to the Medicaid program, and lay the foundation for getting that asset certified – the critical activity to securing MMIS funding for maintenance and operations of existing assets. Additionally, using this framework to plan for enhancements (which would be eligible for 90/10 funding) make the transition to maintenance and operations funding easier in the future.

Audacious Inquiry (Ai) is an industry-shaping health information technology and policy company that provides bold solutions for connected healthcare. If you are interested in learning more about how Ai can help your organization please contact [MediciadAdvisory@ainq.com](mailto:MediciadAdvisory@ainq.com).
